# Why do an Advance Directive?

Anyone 18 years of age or older should have an Advance Directive. This document allows for the care you have designated to be respected and followed through in the event you cannot speak for yourself. It allows for you to name someone to speak on your behalf, but most importantly it removes the stress, anxiety and guilt from decisions that your loved ones would otherwise have to make on your behalf.

An Advance Directive is not just for aging people. The cases of Teri Shivo and Karen Ann Quinlan serve as examples of how any adult, regardless of age, can benefit from having one. Both young adults, Shivo and Quinlan were kept alive by machines for years because they did not tell or write down what they wanted in the event of a tragic accident. The court battles that ensued took not only an emotional toll, but required government involvement because of disagreements between spouses and family members.

# **Description:**

An Advance Directive, sometimes referred to as a Living Will or an Advance Health Care Directive, allows you to make your wishes known if you are unable to speak for yourself. An Advance Directive provides you and your loved ones with peace of mind that your care is compatible with your wishes. This is truly a gift to those you love as it helps them clearly know what to do in this stressful situation.

Advance Directive requirements vary from state to state. You can download the appropriate state form here at no cost prior to completing the form online so that you have the required information prepared in advance.

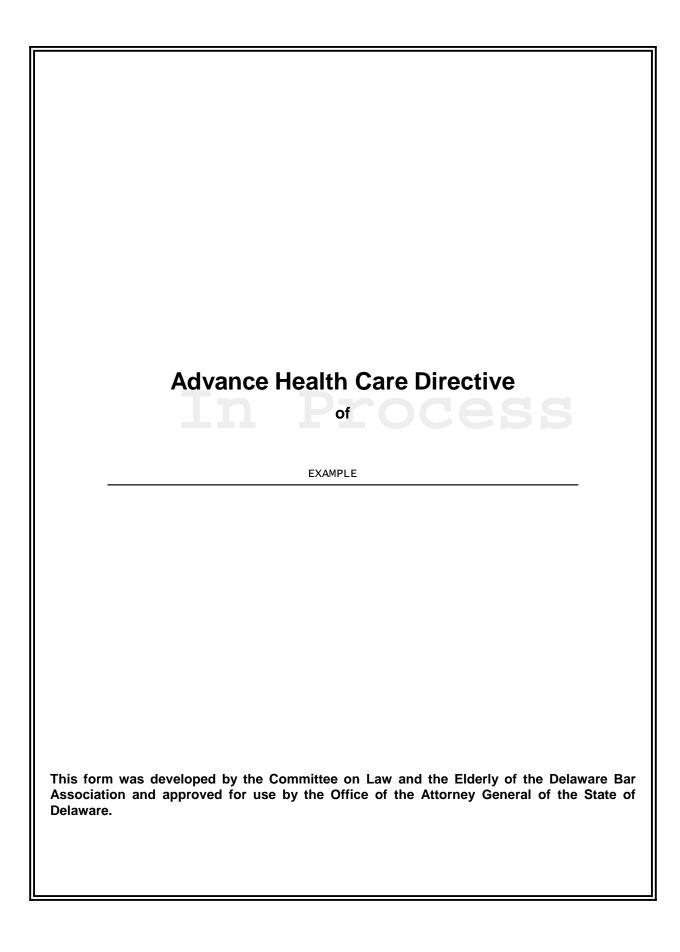

#### **Security:**

Your documents are processed using DocuSign, the leader in global electronic signature and document security.

When you complete your Advance Directive with The ROYL, you can download it as a PDF file to your computer's hard drive. DocuSign will email a final copy to the designees in your Advance Directive. We recommend you print a hard copy and send it via email or mail to others you want to have copies.

Contact us if you have questions in preparing the forms selected.

NOTICE: You must have the required information available prior to initiating the document (designees, contact information, wishes for care).

#### **GENERAL INSTRUCTIONS**

You should read this form carefully before filling it in. You should fill it in completely. If there are health care decisions you do not want to make, you should strike the wording of that decision rather than leave it blank. You may not change the qualifications for witnesses or agents, even if you cross out the wording. You should write legibly.

After you have filled out the form completely, you should sign the form before a notary public. Although signing before a notary public is not legally required, it is advisable. It is advisable because the notary, as well as your witnesses, can testify as to your competence when you sign the directive, if your competence becomes an issue. Notaries, who are registered with the State, are often easier to locate later than witnesses.

You should retain your original Advance Health care Directive, and give copies to your doctor, agent, spouse, family members, and close friends, if you desire. You should explain to each person who receives a copy of your health care directive what choices you made on the form, and why. This will help if, while you lack competence, there arises a need to make a health care decision that is not explicitly set forth on your advance health care directive form.

This form does not contain all of the types of health care decisions you are legally entitled to make. For example, the form does not give you the opportunity to nominate a guardian, in the event you become incompetent and need one. Also, the form does not give you the opportunity to designate a primary care physician, or another person, to certify that you lack the capacity to make your own decisions on health care. Finally, the form does not include a provision that accommodates a person's religious or moral beliefs. If you would like to exercise these options, you should talk to an attorney. If anything on the form conflicts with your religious beliefs, you should contact your clergy.

## PART I. INSTRUCTIONS FOR HEALTH CARE DECISIONS

If you are an adult who is mentally competent, you have the right to accept or refuse medical or surgical treatment, if such refusal is not contrary to existing public health laws. You may give advance instructions for medical or surgical treatment that you want or do not want. These instructions will become effective if you lose the capacity to accept or refuse medical or surgical treatment. You may limit your instructions to take effect only if you are in a specified medical condition. If you give an instruction that you do not want your life prolonged, that instruction will only take effect if you are in a "qualifying condition." A "qualifying condition" is either a terminal condition or permanent unconsciousness.

If you want to give instructions to accept or refuse medical or surgical treatment, you should fill in the spaces on the following page. You may cross out any wording you do not want.

#### PART II: POWER OF ATTORNEY FOR HEALTH CARE

Your agent may make any health care decision that you could have made while you had the capacity to make health care decisions. You may appoint an alternate agent to make health care decisions for you if your first agent is not willing, able and reasonably available to make decisions for you. Unless the persons you name as agent and alternate agent are related to you by blood, neither may own, operate or be employed by any residential long-term care institution where you are receiving care.

If you wish to appoint an agent to make health care decisions for you under these circumstances and conditions, you must fill out the section below. You may cross out any wording you do not want.

- C. WHEN AGENT'S AUTHORITY BECOMES EFFECTIVE: My agent's authority becomes effective when my attending physician determines I lack the capacity to make my own health care decisions.
- **D.** AGENT'S OBLIGATION: My agent shall make health care decisions for me in accordance with this power of attorney for health care, any instructions I give in Part I of this form, and my other wishes to the extent known to my agent. To the extent my wishes are unknown, health care decisions by my agent shall conform as closely as possible to what I would have done or intended under the circumstances. If my agent is unable to determine what I would have done or intended under the circumstances, my agent will make health care decisions for me in accordance with what my agent determines to be my best interest. In determining my best interest, my agent shall consider my personal values to the extent known to my agent.
