Advance Directives Electronic Forms

The ROYL is a leader in offering electronic Advance Directive documents for digital signatures. Electronic Advance Directive Forms are secure and accessible anytime from any device that allows for Internet access.

Why do an Advance Directive?

Anyone 18 years of age or older should have an Advance Directive. This document allows for the care you have designated to be respected and followed through in the event you cannot speak for yourself. It allows for you to name someone to speak on your behalf, but most importantly it removes the stress, anxiety and guilt from decisions that your loved ones would otherwise have to make on your behalf.

An Advance Directive is not just for aging people. The cases of Teri Shivo and Karen Ann Quinlan serve as examples of how any adult, regardless of age, can benefit from having one. Both young adults, Shivo and Quinlan were kept alive by machines for years because they did not tell or write down what they wanted in the event of a tragic accident. The court battles that ensued took not only an emotional toll, but required government involvement because of disagreements between spouses and family members.

Description:

An Advance Directive, sometimes referred to as a Living Will or an Advance Health Care Directive, allows you to make your wishes known if you are unable to speak for yourself. An Advance Directive provides you and your loved ones with peace of mind that your care is compatible with your wishes. This is truly a gift to those you love as it helps them clearly know what to do in this stressful situation.

Advance Directive requirements vary from state to state. You can download the appropriate state form here at no cost prior to completing the form online so that you have the required information prepared in advance.

Security:

Your documents are processed using DocuSign, the leader in global electronic signature and document security.

When you complete your Advance Directive with The ROYL, you can download it as a PDF file to your computer's hard drive. DocuSign will email a final copy to the designees in your Advance Directive. We recommend you print a hard copy and send it via email or mail to others you want to have copies.

Contact us if you have questions in preparing the forms selected.

NOTICE: You must have the required information available prior to initiating the document (designees, contact information, wishes for care).

DURABLE HEALTH CARE POWER OF ATTORNEY
AND HEALTH CARE TREATMENT INSTRUCTIONS
LIVING WILL
PART I
INTRODUCTORY REMARKS ON
HEALTH CARE DECISION MAKING

You have the right to decide the type of health care you want. Should you become unable to understand, make, or communicate decisions about medical care, your wishes for medical treatment are most likely to be followed if you express those wishes in advance by:

- (1) naming a health care agent to decide treatment for you; and
- (2) giving health care treatment instructions to your health care agent or health care provider.

An advance health care directive is a written set of instructions expressing your wishes for medical treatment. It may contain a health care power of attorney, where you name a person called a "health care agent" to decide treatment for you, and a living will, where you tell your health care agent and health care providers your choices regarding the initiation, continuation, withholding, or withdrawal of life-sustaining treatment and other specific instructions.

You may limit your health care agent's involvement in deciding your medical treatment so that your health care agent will speak for you only when you are unable to speak for yourself or you may give your health care agent the power to speak for you immediately. THIS COMBINED FORM GIVES YOUR HEALTH CARE AGENT THE POWER TO SPEAK FOR YOU ONLY WHEN YOU ARE UNABLE TO SPEAK FOR YOURSELF.

A living will cannot be followed unless your attending physician determines that you lack the ability to understand, make, and communicate health care decisions for yourself and you are either permanently unconscious or you have an end-stage medical condition, which is a condition that will result in death despite the introduction or continuation of medical treatment. You, and not your health care agent, remain responsible for the cost of your medical care.

If you do not write down your wishes about your health care in advance, and if later you become unable to understand, make, or communicate these decisions, those wishes may not be honored because they may remain unknown to others.

A health care provider who refuses to honor your wishes about health care must tell you of its refusal and help to transfer you to a health care provider who will honor your wishes.

You should give a copy of your advance health care directive (a living will, health care power of attorney or a document containing both) to your health care agent, your physicians, family members, and others whom you expect would likely attend to your

needs if you become unable to understand, make, or communicate decisions about medical care.

If your health care wishes change, tell your physician and write a new advance health care directive to replace your old one. It is important in selecting a health care agent that you choose a person you trust who is likely to be available in a medical situation where you cannot make decisions for yourself. You should inform that person that you have appointed him or her as your health care agent and discuss your beliefs and values with him or her so that your health care agent will understand your health care objectives.

You may wish to consult with knowledgeable, trusted individuals such as family members, your physician, or clergy when considering an expression of your values and health care wishes. You are free to create your own advance health care directive to convey your wishes regarding medical treatment.

The following form is an example of an advance health care directive that combines a health care power of attorney with a living will.

NOTES ABOUT THE USE OF THIS FORM

If you decide to use this form or create your own advance health care directive, you should consult with your physician and your attorney to make sure that your wishes are clearly expressed and comply with the law.

If you decide to use this form but disagree with any of its statements, you may cross out those statements. You may add comments to this form or use your own form to help your physician or health care agent decide your medical care.

This form is designed to give your health care agent broad powers to make health care decisions for you whenever you cannot make them for yourself. It is also designed to express a desire to limit or authorize care if you have an end-stage medical condition or are permanently unconscious.

If you do not desire to give your health care agent broad powers, or you do not wish to limit your care if you have an end-stage medical condition or are permanently unconscious, you may wish to use a different form or create your own. You should also use a different form if you wish to express your preferences in more detail than this form allows or if you wish for your health care agent to be able to speak for you immediately. In these situations, it is particularly important that you consult with your attorney and physician to make sure that your wishes are clearly expressed.

This form allows you to tell your health care agent your goals if you have an end-stage medical condition or other extreme and irreversible medical condition, such as advanced Alzheimer's disease. Do you want medical care applied aggressively in these situations or would you consider such aggressive medical care burdensome and undesirable?

You may choose whether you want your health care agent to be bound by your instructions or whether you want your health care agent to be able to decide at the time what course of treatment the health care agent thinks most fully reflects your wishes and values.

If you are a woman and diagnosed as being pregnant at the time a health care decision would otherwise be made pursuant to this form, the laws of this Commonwealth prohibit implementation of that decision if it directs that life-sustaining treatment, including nutrition and hydration, be withheld or withdrawn from you, unless your attending physician and an obstetrician who have examined you certify in your medical record that the life-sustaining treatment:

- (1) will not maintain you in such a way as to permit the continuing development and live birth of the unborn child;
- (2) will be physically harmful to you; or
- (3) will cause pain to you that cannot be alleviated by medication.

A physician is not required to perform a pregnancy test on you unless the physician has reason to believe that you may be pregnant. Pennsylvania law protects your health care agent and health care providers from any legal liability for following in good faith your wishes as expressed in the form or by your health care agent's direction. It does not otherwise change professional standards or excuse negligence in the way your wishes are carried out. If you have any questions about the law, consult an attorney for guidance.

This form and explanation is not intended to take the place of specific legal or medical advice for which you should rely upon your own attorney and physician.

PART II DURABLE HEALTH CARE POWER OF ATTORNEY

I, EXAMPLE, of _____ County, Pennsylvania, appoint the person named below to be my health care agent to make health and personal care decisions for me.

Effective immediately and continuously until my death or revocation by a writing signed by me or someone authorized to make health care treatment decisions for me, I authorize all health care providers or other covered entities to disclose to my health care agent, upon my agent's request, any information, oral or written, regarding my physical or mental health, including, but not limited to, medical and hospital records and what is otherwise private, privileged, protected or personal health information, such as health information as defined and described in the Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191, 110 Stat. 1936), the regulations promulgated thereunder and any other State or local laws and rules. Information disclosed by a health care provider or other covered entity may be redisclosed and may no longer be subject to the privacy rules provided by 45 C.F.R. Pt. 164.

The remainder of this document will take effect when and only when I lack the ability to understand, make or communicate a choice regarding a health or personal care decision as verified by my attending physician. My health care agent may not delegate the authority to make decisions.

GUIDANCE FOR HEALTH CARE AGENT (OPTIONAL)

GOALS

If I have an end-stage medical condition or other extreme irreversible medical condition, my goals in making medical decisions are as follows (insert your personal priorities such as comfort, care, preservation of mental function, etc.)

SEVERE BRAIN DAMAGE OR BRAIN DISEASE

If I should suffer from severe and irreversible brain damage or brain disease with no realistic hope of significant recovery, I would consider such a condition intolerable and the application of aggressive medical care to be burdensome.

I therefore request that my health care agent respond to any intervening (other and separate) life-threatening conditions in the same manner as directed for an end-stage medical condition or state of permanent unconsciousness as I have indicated below.

Initials_____I disagree

PART III

HEALTH CARE TREATMENT INSTRUCTIONS IN THE EVENT OF END-STAGE MEDICAL CONDITION OR PERMANENT UNCONSCIOUSNESS (LIVING WILL)

The following health care treatment instructions exercise my right to make my own health care decisions. These instructions are intended to provide clear and convincing evidence of my wishes to be followed when I lack the capacity to understand, make, or communicate my treatment decisions:

If I have an end-stage medical condition (which will result in my death, despite the introduction or continuation of medical treatment) or am permanently unconscious such as in an irreversible coma or irreversible vegetative state and there is no realistic hope of significant recovery, all of the following apply (cross out any treatment instructions with which you do not agree):

1. I direct that I be given health care treatment to relieve pain or provide comfort even if such treatment might shorten my life, suppress my appetite or my breathing, or be habit forming.
2. I direct that all life prolonging procedures be withheld or withdrawn.
3. I specifically do not want any of the following as life prolonging procedures: (If you wish to receive any of these treatments, write "I do want" after the treatment)

 - mechanical ventilator (breathing machine) _____
 - dialysis (kidney machine) _____
 - surgery _____

On behalf of myself, my executors and heirs, I further hold my health care agent and my health care providers harmless and indemnify them against any claim for their good faith actions in recognizing my health care agent's authority or in following my treatment instructions.
